Levelling castor with nylon wheel

- Castor with an ivory coloured, powder coated body and nylon wheel assembled with aluminium and ductile iron housings
- Rectangular top plate and a female thread option for attachment
- Castor is levelled by an integral nylon hand wheel on sizes 42, 50, 63 and 72mm and with a steel hexagonal nut on the heavier duty 72 and 92mm
- Levelling footpad is die-cast aluminium covered in rubber on sizes 42, 50, 63 and 72 and can lock the castor to the floor as well as act as an anti-vibration mount
- On the heavy duty sizes 72 and 92mm, the levelling pad is made from cast ductile iron. The 92mm wheel is blue in colour
- This product is both a castor and a foot mount so it can be used to move all types of equipment in factory and office environments where it is necessary to totally immobilise the equipment whilst in use or storage
- The capacities stated are for mobile use however higher capacities can be achieved with castors in static mode

Available Bore Types

Plain
Bore

Environments of Use

- Weak Acids
- Strong Acids
- Water
- Alcohol
- Weak Bases
- Strong Bases
- Hydrocarbons
- Solvents

Uses

Intended mainly for static uses, for medium-heavy capacities. The excellent rolling resistance ensures that minimum effort is needed in handling, but only on smooth floors.

Industries

Conveyors &
Production

Floor Suitability

Suitable for tiles and cement-resin. Not recommended on unpaved floors or in the presence of processing residues. They facilitate overcoming small obstacles along the path. They do not mark or damage fragile floors.
